

The Kolo Festival 2025 schedule includes:

4 *Instrumental/Vocal Jam* sessions: First two Kafana sessions Friday and Saturday mornings.

2 *Ralph & Friends* sessions: First Kafana session Friday and Saturday evenings

This directory includes charts for these sessions in three forms, described below.
A few booklets will be available.

**** **BOOKLET** form ****

Each **BOOKLET** folder contains a single file to create a booklet.

The *booklet* file in a **BOOKLET** folder can be printed double sided.
This results in some pages containing different tunes on the two sides.
The result is a compact booklet, but not one that can be easily changed.

**** **CONCATENATED CHARTS** form ****

Each **CONCATENATED CHART** folder contains two files

Front Matter: Contains title page, pronunciation guide (for songs), and index

Concatenated Charts: Contains all charts (no blank pages)

The front matter is optional, and can be printed single- or double-sided.

Printing a *Concatenated Charts* file (single-sided) is equivalent to printing all of the individual charts in the IPADS AND TABLETS.

Flipping the first page of each two-page chart yields a booklet that can be easily modified.

Any tune can be removed or replaced, and other tunes can be added.

**** **IPADS AND TABLETS** form ****

This directory simply contains each chart as a separate file that can be imported into a suitable program on an iPad or tablet, such as *forScore* or a PDF reader.
